Understanding the impact of patient and public involvement in research: Making evaluation work for you. - 22 November 2018

An opportunity to develop capacity amongst BRC & CRF researchers, research staff, public contributors and public involvement professionals, in terms of assessing and reporting PPIE outputs, outcomes and impacts. **Learning outcomes will include:**

- To provide an overview of national initiatives and thinking about PPIE impact & evaluation;
- To explore evaluation & impact of PPIE from research and public perspectives;
- To offer practical guidance and support when assessing and carrying our PPIE impact & evaluation.
